

The Pressure Equipment Directive (CE04)

This course is intended to give an overview of the Pressure Equipment Directive, which covers pressure vessels as well as related piping and accessories. Delegates will gain an understanding of CE and UKCA marking this equipment, including finding and applying standards and dealing with Notified Bodies.

Topics covered:

- Identifying and applying standards
- Dealing with Notified Bodies
- Equipment classification
- Valve, piping, pressure accessories and safety accessories
- Choice of materials
- Overlap with other standards
- Pressure assemblies and global conformity assessment

Who should attend?

Anyone who is responsible for the safety of pressurised plant and equipment: designers, purchasers, inspection staff, quality managers, and project managers. Attendees are expected to have a basic understanding of what CE and UKCA marking is before they attend. Please see our Introduction course as a prerequisite.

Cost: £299 + VAT per person for a single half day course.

Book online at <https://shop.conformance.co.uk> or by phone on +44 (0)1298 873800.
