

Environmental Directives (WEEE, RoHS & EcoDesign) (CE13)

The environmental directives are potentially applicable to all manufacturers and importers but they are often overlooked. This course will clarify the legal obligations and give an overview of how to meet the requirements.

A half day course covering the following topics:

- EcoDesign framework and specific regulations
- Performance measurements
- Banned substances
- Directives and regulations
- Technical documentation and evidence of compliance
- Enforcement
- Producer registration
- Batteries Directive

Who should attend?

Anyone involved in manufacture or importation: product designers, production engineers, health and safety officers, importers, managers, purchasing. Attendees are expected to have a basic understanding of what CE and UKCA marking is before they attend. Please see our Introduction course as a prerequisite.

Cost: £299 + VAT per person for a single half day course.

Book online at <https://shop.conformance.co.uk> or by phone on +44 (0)1298 873800.
