

CE Marking Machinery and Industrial Equipment (CE02)

This course will give you an understanding of how to carry out a machinery assessment, including finding and applying the relevant standards, and producing and compiling the appropriate documentation. You will gain the relevant skills, understanding and confidence to enable you to manage the CE marking process yourself.

Topics covered:

- Scope of the Machinery Directive and exclusions
- Identifying and applying standards
- Risk Assessments
- Responsibilities
- PUWER and workplace safety legislation
- Relation to other directives, including EMC, Low Voltage, Pressure Equipment and ATEX
- Control reliability
- Technical documentation, declarations and certificates

Who should attend?

Anyone involved in specifying machinery: design engineers, project managers, importers, and health and safety professionals.

Cost: £350 + VAT per person for a single full day course.

Book online at <https://shop.conformance.co.uk> or by phone on +44 (0)1298 873800.
