

ATEX Compliance and Risk Assessment (CE07)

This course is intended to give participants a thorough understanding of the process of CE and Ex marking equipment that is designed for use in explosive or potentially explosive atmospheres.

Topics covered:

- Practical risk assessments
- Equipment groups
- Certification requirements
- Identifying and applying standards
- Zoning and ignition hazard assessment
- Dusts and vapours
- Requirements for electrical and mechanical equipment
- Notified Body Certification
- DSEAR

Who should attend?

Anyone who has the responsibility for the safety of plant and equipment where explosive atmospheres may occur: product and process designers, purchasers, inspection staff, quality managers, and project managers.

Cost: £350 + VAT per person for a single full day course.

Book online at <http://www.conformance.co.uk/training/index.php> or by phone on +44 (0)1298 873800.
