

PUWER and Site Safety (CE09)

The Provision and Use of Work Equipment Regulations 1998 (PUWER) applies to all machinery that is in service. This course will show those responsible for the safety of machinery how to ensure that equipment is safe.

A half day course covering the following topics:

- PUWER and workplace safety legislation
- Responsibilities
- Electrical safety
- Pressure equipment
- Explosive atmospheres (ATEX)
- Physical Agents Directive
- Identifying and applying standards
- Technical documentation, declarations and certificates
- Risk Assessment

Who should attend?

Anyone involved in site safety or equipment safety in the workplace: design engineers, site safety officers, and site managers.

Cost: £175 + VAT per person for a half day course.

Book online at <http://www.conformance.co.uk/training/index.php> or by phone on +44 (0)1298 873800.
